

GRS Platinum Rarity Gemstone Award Book

An award folio dedicated to only the most beautiful and valuable gemstones and jewelry masterpieces. It contains important historical, technical, and supplementary interpretations expanding the GRS Gemstone Report. It helps to elaborate on the uniqueness of the examined gemstone or jewel and also explains the geological environment from which the stone was brought to light. Depending on the gemstones' relative rarity and value, it will be classified as either **Important** or **Magnificent**.

The customer's gem comes to life using the latest augmented reality (AR) technology. There are also various film clips recorded during the previous expedition to mines that are played directly within the book. The identification of such gemstones and the interpretation of their importance is GRS's ongoing passion and strength.

The GRS Platinum Rarity Award book consists of 40 to 50 pages and represents the latest generation of a gemmological report featuring augmented reality technology.

Features:

- GRS Platinum Report (Important or Magnificent)
- 40+ page book elaborating historical context and geological formation of the featured piece origin
- Customized portrait text
- Enlarged high-resolution photo
- 360° rotation AR video clip of your gemstone

Availability:

- Platinum Rarity Awards are offered at the discretion of GRS to qualifying stones only. Platinum Rarity Gemstone Award Books are available for **rubies** and **sapphires** from **Burma (Myanmar)** and **Sri Lanka** and **emeralds** from **Colombia**. We are working on expanding the selection to offer this high-quality product for more origins and gemstone varieties.

Prices:

- [Contact us](#) to inquire about the prices for a GRS Platinum Rarity Gemstone Award Book.

The GRS Platinum Rarity Gemstone Award Book comes in a custom made box containing the unique report- and award number as well as the item description.

The image of the gemstone or jewellery piece can be scanned using the GRS AR app which will load a 360° video clip of the featured gemstone or jewellery piece.

Experience GRS Augmented Reality

The GRS AR symbol on a GRS report indicates that additional video content is available. You can reveal it using the GRS AR app. Try it now with the picture below. Enjoy!

1. Open the [App Store \(iOS\)](#) or [Google Play Store \(Android\)](#) on your mobile device
2. Search for "GRS AR"
3. Install the app
4. Launch the app and scan either the sapphire picture using the "AR scan" function or scan the QR code using the "QR scan" function
5. Watch the 360-degree rotation video of the gem
