Design update of GRS logo, report and red cover

The design of our logo, report (including appendix), and red cover has been updated. The renewed products are in circulation since approximately September 2021. Kindly take notice of the following changes made to the GRS report:

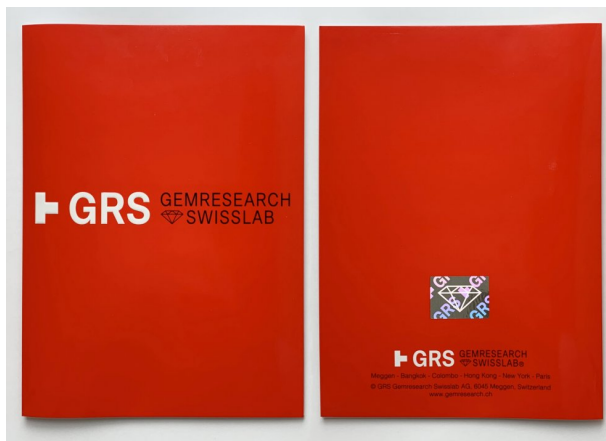

1. The two logos on the report have been slightly updated and now bear a simplified version of the "gemstone icon"
2. The address in the lower-right corner has been updated to *GRS Gemresearch Swisslab AG, 6045 Meggen, Switzerland*
3. The disclaimer in the lower-left corner "*See reverse for important information, terms and limitations*" has been moved to the right

On the red cover, we have updated both logos (front- and backside) as well as added all our global laboratory presences.

Should you have any questions in regards to the updates made, kindly reach out to us via our [contact](#) page.

GRS report with an updated logo, disclaimer position, and address

Red cover with updated logos and laboratory locations
